

# ***The Essential***

## ***Your stairlift***

***Reliable and safe on straight stairs***

---

### **MOBILITY**

From time to time, climbing steep stairs can be awkward and physically demanding for some people. The *Essential* stairlift is an excellent product designed to simply provide an easy and convenient way of accessing upper floors quickly and safely, whenever required.

### **DESIGN & COMFORT**

The *Essential* stairlift has been developed specifically for domestic application and will fit neatly into your home. When not in use it can be folded away and with its slim profile will not obstruct the stairway for use by other people.

### **HIGH QUALITY**

The robust construction results in an exceptionally durable lift with a reliable performance. Confirming to the highest safety and quality standards the *Essential* stairlift is an inexpensive way to manage straight staircases in a pleasant way.
